

0) Clear permission to publish the plan from your school or employer, if necessary. Make sure any materials you use from others are attributed and licensed to be re-mixed.

1) Turn it into a PDF if it isn't already. Cf. Wikipedia's [List of PDF software](#) or use Google docs if you need software.

2) Go to <http://en.wikiversity.org>.

3) Log-in or create an account, in the top right.

 [Log in / create account](#)

The screenshot shows the Wikiversity Main Page. At the top, there's a navigation bar with links: Community, Discuss, Read, View source, View history, and a search box. Below this, a banner asks "Why create a Wikiversity account?". The main heading is "Wikiversity:Main Page". On the left, a sidebar contains links: Random, Help, Donate, Community (with sub-links: Portal, Colloquium, News, Projects, Sandbox, Help desk), Print/export, and Toolbox (with sub-links: What links here, Related changes, and a highlighted "Upload file" link). The main content area shows the upload process. Step 4: "Click 'Toolbox'" points to the Toolbox link in the sidebar. Step 5: "Find the file on computer." points to the "Source file" section, which includes a "Source filename:" input field with a "Browse..." button, and a note "Maximum file size: 100 MB (a file on your computer)". Below this, it lists "Permitted file types: png, gif, jpg, jpeg, xcf, pdf, mid, ogg, ogv, svg, djvu, tiff, tif, oga." Step 6: "Choose a license." points to the "Licensing:" dropdown menu, which is open and shows options: "None selected", "I don't know what the license is", "[Your own work (best practices)]", "Own work, copyleft, attribution required (Multi-license GFDL, CC-BY-SA 1.0 - 3.0)", "Own work, all rights released (Public domain)", and "Own work, copyleft, attribution required (GFDL, CC-BY-SA-3.0)". Step 7: "Click 'Upload file' at the bottom of the page." and Step 8: "Improve this document and re-publish it." are not directly visible in the screenshot but are part of the process.
