

The Secret to Unlock The Zoomies

1 message

Imagine how desperate my dog Charlie was.

If you think it's impossible to make your dog/cat into a youthful animal who often has the zoomies to show the happiness of life,

When he was 3 years old, his overflowing energy fueled his unstoppable zoomies.

His adorable smile while he was waiting for me to throw his favorite ball is stuck in my memory.

But, after his fifth birthday, he began losing his energy. Bit by bit...

I didn't know what was wrong.

During the night, he was struggling to fall asleep.

Furthermore, he refused to eat the peanut butter biscuit that he loved before.

Even when I brought him to his favorite park, he would totter for 30 seconds only to go and lie down under a tree.

I spent countless nights searching the internet to find solutions for my beloved Charlie.

My veterinarian said, "It's just the age," and gave me some vitamins.

During two months, I went through over 40 YouTube videos about common dog diseases.

Following four months, I tried countless different types of natural dog food and bought the most comfortable bed from Amazon.

But they didn't work at all!

My hope slowly faded as I lay on his stomach in a dark room.

These intolerable days have lasted for 11 months...

I was ready to accept the cruel faith that I couldn't help my poor baby feel alive again when...

All of a sudden, a ray of light shined through the clouds.

My phone beeped on the table.

My old friend, biologist John, replied to my message about Charlie I sent a month ago.

The next day, we met at the cafe nearby his lab.

He gave me CBD oil for animals that were under development (which are fully certified by USDA now).

A week after, Charlie swallowed the oil, and his complexion got back on his feet.

And he fell into a tranquil slumber like a baby.

It was the first time in three years that he showed me such a peaceful sleeping face.

And, I couldn't stop bursting into tears.

A few weeks later, he ultimately got over what he used to be.

I couldn't find a word to thank George. He guided me to an oasis in a vast desert.

At the same time, Charlie got over the most strict agricultural organization in the US called USDA-certified CBD oil for pets.

Over 900 researchers proved that CBD has no negative side effects.

These are the specific aspects that your pets can experience from it:

- ✓ Fall Immediately Into The Deep Sleep
- ✓ Feel Extremely Comfortable (by relieving pain)
- ✓ Weight Control (by stimulating appetite)
- ✓ Prevent Common Diseases (by boosting the immune system)

etc.

The choice is yours.

You can keep...

paying hundreds of dollars a month for synthetic and dangerous painkillers that have horrible side effects;

praying that your pets can sleep every day in serenity;

dreaming that your pets will get overflowing with energy which will never happen without any dog foods and painkillers.

Or you can try CBD oil while saving money right now....

3 years after Charlie's tough time, I've started a company to save many pets with it.

And we're offering a particular temporary campaign of a 10% discount for all oils.

So secure your supply of ALL NATURAL in easy-to-lick oil...

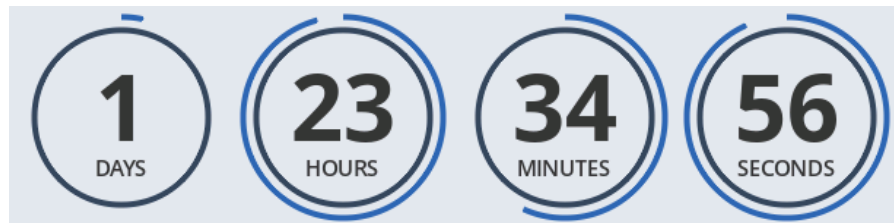

But stocks for high-quality oil are limited, so don't waste your opportunity.

I'm looking forward to you making the right choice for your lovely pet's health.

God Bless,

ZenFrenz®

Name: Sarah Lawson

Appearance: Sarah Lawson is a nurturing and empathetic woman in her early forties. With her long chestnut hair and soulful blue eyes,

Background: Sarah has always been an animal lover, and her passion for dogs led her to adopt a lovable mixed breed named Max. She rescued Max from a local shelter when he was just a puppy, and they have shared an unbreakable bond ever since...

Pet: Max is Sarah's cherished six-year-old rescue dog. He has a beautiful coat of soft, brown fur and intelligent, soulful eyes that convey his deep connection with Sarah. Max is incredibly loyal, and affectionate, and brings immense joy to Sarah's life. They enjoy going on long walks together, playing fetch in the park, and snuggling up on the couch for quality bonding time.

Roadblocks (Sleep Disorder): Lately, Sarah has been concerned about Max's sleep disorder. Max often experiences episodes of restless sleep, characterized by frequent awakenings, whimpering, and agitated movements during the night. Sarah has taken Max to the veterinarian, who diagnosed him with a sleep disorder. Despite trying various treatments and consulting with specialists, Max's sleep disorder remains a challenge to manage. Sarah feels helpless and deeply worried about her beloved companion's well-being.

Worries and Concerns: Sarah's worries revolve around Max's comfort and overall health. She spends countless hours researching different remedies, reaching out to support groups, and experimenting with various strategies to alleviate Max's sleep disorder. Sarah carefully monitors Max's sleep patterns, documenting any changes or triggers that might contribute to his restless nights.

Dream State

1. Searching for Solutions: Sarah may dream about tirelessly searching for solutions to Max's sleep disorder. These dreams might involve encounters with dream experts, veterinarians, or even fantastical beings who offer advice or remedies. In these dreams, Sarah's determination to find a solution is evident as she explores different options and seeks guidance.

2. Anxiety and Helplessness: Sarah's worries and concerns about Max's well-being can manifest in dreams as feelings of anxiety and helplessness. She may have dreams where she witnesses Max struggling in his sleep, unable to comfort or alleviate his distress. These dreams reflect her deep emotional connection to Max and her desire to find a way to ease his suffering.

3. Healing and Recovery: Sarah may also experience dreams that offer a sense of hope and healing. In these dreams, she envisions Max peacefully sleeping and gradually overcoming his sleep disorder. These dreams can provide comfort and reassurance, giving Sarah a respite from her worries and a glimpse of a positive outcome.

4. Communication and Understanding: Dreams of communication and understanding between Sarah and Max can also occur. In these dreams, Sarah may find herself able to understand Max's needs and emotions on a deeper level. It can be a symbolic representation of their strong bond and Sarah's longing to comprehend Max's experience.

5. Finding Peace and Comfort: Sarah's dreams may also offer moments of tranquility and serenity. She may dream about Max sleeping soundly, nestled in a cozy bed, or imagine them sharing a peaceful moment. These dreams provide a sense of solace and serve as a reminder that despite the challenges, there are still moments of peace and comfort to be found.
