Biography

Back Then,

Calamity Jam was originally formed in the late 90's to enter the 'East Coast Radio battle of the bands competition'. We won and were given a chance to record a 12 track CD. With a few guest spots here and there, Calamity Jam was ultimately shelved.

And Now,

Since then a few of the original members reformed and were joined by Raul Diaz on drums and Nick Pitman on electric guitar, and thus, the rebirth of Calamity Jam.

The bands aim is to take popular cover songs from the oldies to that of the modern era and offer a classy, rocking and interactive performance.
