	Kia ora John, I'm Amie from Awapuni School. I really enjoyed your animation because it's of a spaceship and I love anything to do with Space. You taught me that you we're able to add a background to our animations, which makes them look amazing! If you could add a blurb about what you were learning about above it, I'd be able to understand even more about why you created this. Have you made other animations?
