Setting-Up a Formula

Write a formula to express each of the following statements:

A mobile hairdresser charges £10 per hour spent working on a client plus a basic fee of £20.

A coach hire company charges a fixed fee of £500 plus £25 per hour.

Adverts in a newspaper cost a fixed charge of £10 plus 10 pence per word.

The cost of repairing a car is the number of hours of labour (h) by the rate of pay (r) plus the cost of parts (p)
