

How May I Share Your Thesis Work?

(Informed Consent Form)

Introduction

You have done amazing work in the seminar, and on your thesis. I hope you are as proud of your work as I am of it. It's a very special example of what a student can learn and do with great effort and a great community.

Sharing

You learned from many other people in the seminar and your project. Similarly, there will be future seminar students, and other teachers, who can learn from what you have done. I would like to share your thesis work with other students, and with other teachers.

I would like to share your thesis, and your thesis appendices (your materials) with other teachers and students.

Please read the following questions and circle YES or NO for each. (You may change this anytime)
