

FANDOM FUSION PRECLAIMS -

HELLAVERSE ADOPTS BREAKDOWN

If you would like to preclaim a square on the board, there are a few things to keep in mind

1. All results from this board will be Hellaverse characters ONLY, this is subject to change for some boards in the Fandom Fusion sets, but that will be indicated in the post

2. There will only be 12 slots available for preclaims. If I already have a specific design in mind for a certain slot, it will be marked. Preclaims are first come first serve. Once a square is claimed, it cannot be claimed again. Once a square is designed by me, it cannot be claimed for a custom design and can only be purchased at the set adoptable price.

- All preclaims are at the set price of "\$150USD" and must be paid via:

- PayPal: symbisuits@gmail.com
- Cashapp: \$Spiderfgg0t
- Ko-fi: <https://ko-fi.com/dragon>

- I require at least half payment up front in order to claim a slot. If half is paid initially, the second half must be paid within 42 hrs of your design completing the sketch phase. If not paid, you relinquish your right to the design and it will be (with tweaks to distinguish it from your concept) resold as an adoptable to recover costs. Initial payment will only be partially refunded. If anything comes up, I am more than happy to be flexible with the secondary payment. This is mainly reserved for if I am completely ghosted and or blocked

after presenting the sketch

3. When preclaiming a design, I have a specific design process I use. While this is still partly artistic liberty, you still have the chance to determine certain things about the design. My process is in a simple list format, it goes as the following:

- Character inspo / Fusion Components: This will be indicated by the square chosen (for example on the Birdie Royale(Pictured Left) / first grid, "E3" would be inspired by Nightmare Moon and Andrealphus.) These character's attributes will be used in multiple different ways to create a brand new unique Hellaverse character!

- Species: Any Hellaverse species is applicable here! Hybrids too! The species/race of the fusion components rarely determine the final design's species/race(except for specific racial coding I'd prefer to keep in some characters as that's important to me shout out black coded characters). Don't have a specific species in mind? I have a big ass wheel that can make that decision for you. You can pick from one of three randomly spun options if you choose this route.

- Required element: Any elements that are absolutely necessary for this design. This could be as broad as a specific motif or as specific as a specific clothing item or weapon

- Gender - Pronouns - Sexuality: What it says on the tin. This helps me with the design as well but more for the full reference sheet than it is for the actual design

- body type: Also what it says on the tin. Curvy? Muscular? Thin and lanky? Big and fat? Whatever you want here goes! I'm super open to trying different body types, I genuinely love fucking around with shapes

- Any other notes: Anything else that you would like for the design and ref sheet

4. What exactly does a pre-claim get you?

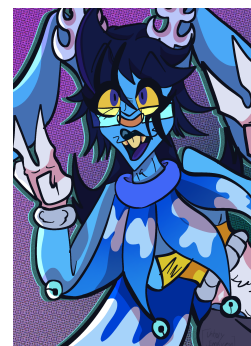

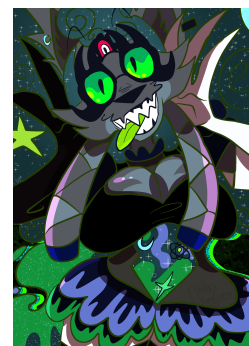

- First dibs on a specific fusion
- 4-6 image Ref sheet (similar to model sheet pictured right, credit @sourplumwine)

★ Features:

- ¾ pose full body
- Side profile full body
- 2-3 simple expression mini portraits
- Additional feature close ups where applicable
- Full Color Pallet
- Version with and without text mini

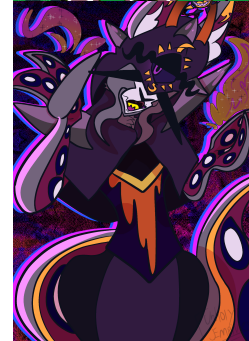

bio(Name, pride flags, pronouns, species, key facts)

- Additional custom print style artwork (Similar to artwork on right)
- Full design and character rights(My work must be credited where applicable)
- Full control over the final result

5. Can I add anything to the preclaim?

- Yes you can!! Here's a few things we can add for additional payment:
 - ★ Nude ref sheet: Additional \$85
 - ★ Additional artwork: Ask about this!
 - ★ Physical Custom Merch: Ask about this!
 - ★ Prop refs: Separate ref sheet for individual character props: \$60 per prop
 - ★ Bust Icon: Additional \$25
- Feel free to ask me if anything extra comes to mind!

6. What can I use my finished character for?

- Pretty much whatever you want! NSFW (yes including fetish stuff if so desired) is very ok. Hell I'm happy to do NSFW work of the character for you. Feel free to use that bugger for whatever you want. All I ask is the following:
 - Please credit me for the design and any artwork I have created for your character
 - Do not use the design for hateful, bigoted, illegal, and/or bad faith content and/or material
 - - I will hunt you down personally and drop a comically large anvil on you if you put my art through AI this is a promise not a threat
 - If design is resold, please talk to me about doing so first. If design only has the artwork initially created at the time of sale, please do not sell for any more than you spent. (ex: If design is sold with original ref sheet + Nude sheet + Print artwork + Icon, you may only sell for a maximum of \$260 USD). If anything new / additional comes with the design, you are free to sell for a price you see fit. I ask you to just notify me as I would like to keep track of where my designs end up ☺
 - Also feel free to keep me updated! I love knowing what folks do with their new blorbos!

ALL COMMUNICATION MUST BE THROUGH DISCORD
PLEASE KEEP THIS IN MIND!!!

Have anymore questions? Feel free to reach out! I'm happy to answer!
