

Dear Williston Selectboard Members,

We, the undersigned residents of Williston support the adoption of the proposed Energy Plan into the Town Plan. Additionally we support the hiring of a Williston-specific Energy Coordinator to implement it and make it a reality.

We are excited about the opportunity for us as a community to take this concrete step towards a more sustainable and resilient future for Williston.

Sincerely,  
The Undersigned

Name	Residence	Comments
Deborah Miuccio	Williston	
Marcy Kass	Williston	This is a positive step towards Williston's healthy future
Lynn Blevins	Williston	I support this plan and dedicating the resources to bring it to fruition. We all benefit from this investment.
Mary Schreiber	Williston	Thank you Sustainable Williston for this thoughtfully developed, in-depth plan of action. The actions covered are much needed in light of the climate crisis that is already here, and requires EVERYONE to pay attention and re-adjust our lifestyles.
Jere Conner	Williston	Ensure that the town, country, and planet are livable as we know it for future generations.
Elizabeth Ezerman	Williston	It is critical that we address climate change on multiple fronts, as this plan does, as soon as possible and act as educators to Williston citizens and as a role model to other communities. The time is now; we can't afford to delay. Kudos to all who helped prepare the plan.
Danielle Doucette	Williston	I strongly support our turn taking a leadership position in Vermont's transition to renewable resources and get off of our reliance on fossil fuels. I like how the energy plan attempts to do this with various pathways- heating, transportation, development. Please support adopting a town energy plan.
Sarah Tandan	Williston	
Scott McCamp	Williston	
Kate Emmons	Williston	I think it's essential that all communities have a plan for addressing the climate crisis. With resources being limited and continued detrimental effects to our planet, it would be great to see our town taking action to implement a more sustainable future concerning energy.

Barb Giardi	Williston	
Caylin McCamp	Williston	It's essential for Williston to take a proactive (vs reactive) approach to the climate crisis. This plan is well thought out and would make Williston a leader in working towards existing state goals. I especially support hiring a full time Energy Coordinator who can make sure the plan gets implemented.
Ken Grossman	Non-Williston	We are second home owners in Williston. We can't wait to see Williston adopt this amazing detailed Energy plan, which will not only be good for Williston, but also serve as a model for other towns, for Vermont and the country. It's one thing to say you're worried about the climate. Another to work out the details. This plan does that.
Lorelei Camp	Williston	
David Howell	Williston	
Sarah Kim	Williston	
Anne Marie Humbert	Williston	
Steve M. Hulse	Williston	Good for the planet
Michelle Rath	Williston	
Patricia Tandan	Williston	
Rup Tandan	Williston	
Kevin Thorley	Williston	I strongly believe that the plan outlines steps that not only help Williston do our part to address the climate crisis and support the VT climate plan, but also make Williston a more livable town for all of our citizens and lower our citizens' energy costs
Ronald Nicksic	Williston	
Frances Turner	Williston	
Lisa Mullerauh	Williston	I support this plan BECAUSE I CARE and although I do not have the know-how, I think if we tapped our community, there is someone(s) that can help us get there. We may need to pay bit more eventually, but we have to always consider the greater good for the most people and our Mother Earth.
Kristina Martin	Williston	A collective effort and support is necessary to implement the strategy and tactics of the proposed Williston Energy Plan, which I support as a community effort to instill a more sustainable future and direct action to combat the climate crisis.
Julieta I Rushford	Williston	I support environmental health
Wendy Bronner	Williston	
Jasper Wood	Williston	I support this because I know that climate change will cause the next mass extinction on this planet if left unchecked and I will be alive for that. This plan will help change that.

Ron Hunt	Williston	
Brian Forrest	Williston	Even though the pandemic is on everyone's mind, the climate crisis is still heading our way and we need to take responsibility for Williston's contribution to this crisis - not just the municipal buildings but every building in town and the vehicles we use to move about.
Matthew Wood	Williston	I feel we can make more of an impact by acting together as a town in addition to our individual efforts.
Lauren Miles	Williston	
Travis Miles	Williston	
Reed Carr	Williston	I want my town (Williston) to be a leader on this issue that's important to today's residents and numerous generations to come. We have a goal, now let's put a plan in place and take the first step if having a town staff member dedicated to this issue.
Kevin Batson	Williston	I am in support of the entire Energy Plan
Evan Morrison	Williston	This plan is great. It will help do our part against the climate change concerns. Great for Williston today, tomorrow and well into the future.
Brant Dinkin	Williston	
Luna Wood	Williston	I believe this is very important for my future
Lisa Stetson	Williston	
Amanda Payne	Williston	We must as a community take action to promote more sustainable ways of living and developing. I support this plan and hope you will too.
Julia Westbrook	Williston	
Joshua Westbrook	Williston	
Stephanie Glock	Williston	
Chris Scott	Williston	
Owen Scott	Williston	
Annika Scott	Williston	
Elizabeth Ritchie	Williston	This is such a great idea!
Linda Scott	Williston	It is a concrete plan with great direction for a sustainable, energy conscious town!
Brent Blevins	Williston	
Dennis Bates	Williston	
Ann Hazelrigg	Williston	
Barbara LeWinter	Williston	
Teresa Scott	Williston	The time to take action is now, and this plan is a clear plan to

		direct attention to important areas of climate change at our local level.
Amy Brewer	Williston	
Mary Oliphant	Williston	
Kimberly Hornung-Marcy	Williston	The science is clear that we must stop the warming of the planet. Resistance to doing long range planning is our main temptation. The sooner we adopt measures to increase energy efficiency the more we can prevent the worst case scenarios from occurring. Currently we lack leadership at the National level so grass roots and local measures are key. Even if leadership changes at the National level, local efforts will remain key. I thank those who have developed this very thorough plan to aid all of Williston in being good climate/land stewards. Future generations will look to what we do today, we cannot delay.
Heather Kinsey	Williston	
Elizabeth Skarie	Williston	
Heather Kinsey	Williston	
Jerry Greenfield	Williston	
Annika Scott	Williston	
Jill Carberry	Williston	
Laurinda Poirier Solomon	Williston	
Mary Beth Hill	Williston	
Alyssa Hill	Williston	
Cara Feldman-Hunt	Williston	
Theodore W. Marcy	Williston	Appreciate the detailed plan with measurable goals and defined pathways to progress.
Beth and Paul Gutwin	Williston	We fully support any effort to move away from dependence on fossil fuels.
Anna Thorley-Doucette	Williston	So there is not pollution in my future.
Alison Duback	Williston	
Luna Wood	Williston	I believe this is very important for my future
<i>PDF included in Selectboard packet shows only signatures above, which were submitted before 10pm on 7/21</i>		
Lori Fisher	Williston	
Ben Rose	Williston	
Jonathan Swartz	Williston	Local and VT state leadership is essential to pave the way to a habitable planet for our children and grandchildren.
Mary Jo Childs	Williston	The plan is sound, realistic, and vitally necessary.

Amy Brewer	Williston	
Jackie Mangione	Williston	It's time we support thru education and use-cleaner energy solutions.
Virginia Frey	Williston	
Mary V. Tegel	Williston	
Angela Arsenault	Williston	
Reuben Escorpizo	Williston	
Brittany Escorpizo	Williston	
Mathias Escorpizo	Williston	
Filippa Escorpizo	Williston	
Oakley Escorpizo	Williston	
Laura Meyer	Williston	It is a well thought out plan.
Holly Grossman	Non-Williston	
CristaLee McSweeney	Williston	
Hannahlei McSweeney	Williston	
Barbara Giardi	Williston	
Jack Thorley-Doucette	Williston	I support the idea of having a town powered on sustainable energy.
Amy Skapof	Williston	
Carl Runge	Williston	
Alyssa Hill	Williston
