RULES & TOS (Commissions in general)

(Last Updated: Aug 11th, 2026)

Changelog:

- **New examples added.**
- **Sticker Pack buffed to 12 from 9. Singular sticker commissions are now available at $12 USD.**

- 18+ and up only.
- Paypal Only! Invoice will be sent once all details are talked about and an idea is decided upon, including a run down of the price. Once it is paid I am obligated to finish it.
- The artist has the right to turn down a commission. Please understand this, because some things just don't vibe with me.
- COMMISSIONS ARE FIRST-COME, FIRST-SERVE. To keep an order mostly and because I wanna do one at a time. College cuts my time way too hard sometimes.
- Visual refs recommended. Using images and detailing thru text works too in the case of a design that has yet to be made(especially for ref sheets). Everything goes here, so don't be shy to share images for reference.
- Requests for changes only apply until the sketch is finished. Any changes asked after, if major enough, will be charged at a fixed rate (see further down for details).
- I will send work in progress parts of the commission to the commissioner, mostly when large progress is made. Though do not be shy to ask if you need an update! Ask away!
- A high quality file of the image will be sent to the commissioner once posting and payment have been finished, to either an email, a compressed rar file on Discord or through a Google Drive link.
- Commissions are for non-commercial purposes by default. If you are to use it commercially, please discuss it, and don't forget to credit me wherever you will use it.
- Do not chuck my art into NFT or AI related content or use AI to complete a partial sketch. If I find out you do this or someone informs this, you are banned from my commissions. No exceptions, blacklisted.
- Don't remove the watermark. I'll notice easily if you do and you'll also be blacklisted for that.
  Currently Blacklisted content: SDL related content.

Sticker Example

Animated Icon example:

- For comic sequences and the like, we may discuss details regarding every aspect of it, from the amount of pages as well as the amount of panels, the direction and script for what is essentially the story behind it. Comics get 4 unique characters minimum per page before extra charges.
- If a character has a rather complex design, a fee equivalent to a quarter of the price will be charged. This is based on the character's details and other specific things to consider, though it is all discussed first and foremost.
- Priority mode is a service that forces your commission to be my TOP priority. There is only one slot per commission (and per opening) so as to not be abused, but you can believe that commission will be the first of the batch.
- Changes post-sketch will be an extra $5 to $10 based on how major the changes are.
- Reference sheets come at a price of $80, coming with three flat-colored poses(front, back, and a pose of choice), details of the character, and one alt. Extras to the ref sheet will have a fixed $10 per detail(poses, character expressions,etc).

- Regarding Alts, pricing will scale based on complexity of change similar to post-sketch changes, however, if alts require more complex changes, the amount may vary to about a quarter of the price IF it is too complex.

REF SHEET EXAMPLE:

If everything's set and in order, send me a DM on Bluesky, or Discord! My handle is randkami.bsky.social, and on Discord: it's randkami.

Any questions will be answered through these channels.

Hope to see you folks soon!
