

Your privacy is important to us. The **Smart Trim URL** Chrome Extension is designed with a single purpose: to remove unnecessary tracking parameters from URLs. We do not collect, store, or share any personal information. This privacy policy explains how we handle your data.

1. Information We Collect

We **do not collect or store any personal or non-personal data**.

Specifically, we do **not** collect:

- Names, email addresses, or contact info
- Browsing history or web activity
- IP addresses or location data
- Cookies or local storage
- Financial, health, or authentication data
- Clipboard content (except cleaned link on user action, not stored)

All functionality runs locally in your browser. We do not transmit or store any information outside of your device.

2. How Smart Trim URL Works

When you click the extension icon, Smart Trim URL accesses the URL of the active browser tab to:

- Analyze the URL structure
- Remove known tracking parameters (e.g., `utm_source`, `fbclid`, etc.)
- Display a cleaned version of the URL
- Allow you to copy the cleaned URL to your clipboard

This process is performed **entirely in your browser**. No data is sent to us or to any third party.

3. Third-Party Services

Smart Trim URL does **not** use any third-party services, trackers, analytics platforms, or cloud-based storage.

There are:

- No Google Analytics
- No advertising SDKs
- No external APIs
- No background data collection

4. Permissions Explanation

The extension uses the following Chrome permissions:

- `activeTab`: To access the current tab's URL when the extension icon is clicked.
- `clipboardWrite` (optional): To copy the cleaned URL to your clipboard upon user request.

These permissions are used **only when the user interacts** with the extension and do not involve any background or automated data processing.

5. Data Sharing and Sale

We do **not** sell, transfer, or share user data with any third parties.

We do **not** use data for advertising, profiling, or analytics.

We do **not** use or transfer user data to determine creditworthiness or for any lending purposes.

6. Children's Privacy

Smart Trim URL does not knowingly collect any data from children under the age of 13. Since no data is collected, the extension is compliant with COPPA and similar child protection laws.

7. Changes to This Policy

We may update this Privacy Policy occasionally. If there are material changes, we will update the version here and reflect the “Last updated” date at the top. Continued use of the extension after updates constitutes agreement to the revised policy.

8. Contact Us
