PROFESSIONAL SUMMARY

AI Agent Developer and Automation Engineer with 2+ years of hands-on experience designing and deploying production-grade autonomous AI systems, multi-agent pipelines, and LLM-powered workflows. Proven track record delivering measurable automation impact for clients — reducing manual workload by 60%+, enabling 24/7 autonomous execution, and integrating AI across SaaS platforms. Holds 7 Anthropic Academy certifications. Core stack: Python, FastAPI, Node.js, React/Next.js, n8n, Claude API, OpenAI, Gemini, Pinecone, Supabase, Docker, Google Cloud Run, MCP.

EXPERIENCE

AI Automation Engineer & AI Consultant | [DasWebSolutions](#) | Mar 2026 – Present • Remote

- ▶ Leading AI automation initiatives and consulting engagements — architecting end-to-end agentic workflows and LLM-powered solutions for clients across industries.
- ▶ Designing and deploying multi-agent systems with Python, FastAPI, and n8n; integrating Claude, OpenAI, and Gemini APIs for production-grade AI automation.
- ▶ Providing strategic AI consulting — identifying automation opportunities, defining implementation roadmaps, and delivering measurable ROI for client operations.
- ▶ Building and maintaining scalable AI infrastructure on Google Cloud Run with Docker-based deployments and REST API endpoints.

AI Automation Specialist | One Janitorial | Oct 2025 – Mar 2026 • Remote (Canada)

- ▶ Designed and deployed autonomous AI agents using Python and n8n to automate core operations workflows — enabling 24/7 execution with zero manual intervention.
- ▶ Built multi-step n8n automation pipelines for scheduling, client communication, and internal task routing — reducing team manual workload by ~60% week-over-week.
- ▶ Integrated AI agents with existing SaaS tools via REST APIs and webhooks, eliminating repetitive human touchpoints across the operations stack.
- ▶ Cut response time on key workflows from hours to minutes by architecting agentic decision-making logic for faster, consistent operations execution.

AI Agent Developer & Engineer | Freelance | Sep 2024 – Oct 2025 • Remote

- ▶ Built Must A2A — autonomous email manager agent controllable via Telegram/WhatsApp with RAG-based memory and multi-LLM support; achieved AEI score 9,250/10,000.
- ▶ Engineered a lead generation agent scraping Google Maps, Reddit, X, and LinkedIn — auto-delivering structured leads to Google Sheets for an ad agency client.
- ▶ Designed a Pinecone-based RAG system for a SaaS product enabling accurate document Q&A across large knowledge bases at production scale.
- ▶ Deployed AI agents on Google Cloud Run with FastAPI backends and REST API endpoints — serving real client workloads with high availability.
- ▶ Ran locally hosted models (Ollama, LM Studio, AllTalk + Kokoro/Qwen) for privacy-preserving, offline client deployments.
- ▶ Achieved 200+ paid users in 5 days via a Reddit ad campaign for Runcraft — combining AI-generated copy with conversion-optimized targeting.
- ▶ Delivered full-stack AI applications using React, Next.js, Supabase, and FastAPI — shipped with Claude Code, Cursor, and Windsurf as primary dev environments.

TECHNICAL SKILLS

AI Agents & Automation: Agentic Workflow Design • Multi-step Pipelines • Tool Calling • RAG Systems • n8n • Webhook/API Integration

Languages & Frameworks: Python • FastAPI • Node.js • React • Next.js • REST API Design

LLMs & Prompt Engineering: Claude API • OpenAI API • Gemini API • MCP • Context Engineering • Structured Output Design • Multi-model Workflows

Databases & Vector Stores: Pinecone · Supabase · SQLite · MySQL

Cloud & Infrastructure: Google Cloud Run · Docker · Google ADK · Amazon Bedrock · Vertex AI

Local AI & Open Source: Ollama · LM Studio · AllTalk · Kokoro · Qwen

Dev Environments: Claude Code · Cursor · Windsurf · Antigravity IDE (Google Agentspace)

AI Video & Creative: Google Veo 3 · Runway · Kling · ElevenLabs · DaVinci Resolve

KEY PROJECTS

- ▶ Must A2A Email Agent — Telegram-controlled autonomous email manager | Node.js, Express, React/Vite, SQLite/MySQL, multi-LLM | AEI Score: 9,250/10,000
- ▶ VisionTutor — Camera-based AI tutoring agent | Gemini Live API, Google ADK, Next.js + FastAPI | Built for \$80K Gemini Live Agent Challenge
- ▶ MailMind — Autonomous email manager agent | Built for \$7K Airia AI Agents Hackathon
- ▶ RAG SaaS Q&A System — Pinecone-based document intelligence for a SaaS product, enabling production-scale knowledge-base Q&A
- ▶ Lead Generation Agent — Multi-source scraper (Google Maps, Reddit, X, LinkedIn) delivering structured leads to Google Sheets

CERTIFICATIONS

- ▶ Building with the Claude API — Anthropic Academy | 2024
- ▶ Introduction to Model Context Protocol (MCP) — Anthropic Academy | 2024
- ▶ Model Context Protocol: Advanced Topics — Anthropic Academy | 2024
- ▶ Claude Code in Action — Anthropic Academy | 2024
- ▶ Claude with Google Cloud Vertex AI — Anthropic Academy | 2024
- ▶ Claude with Amazon Bedrock — Anthropic Academy | 2024
- ▶ AI Fluency: Framework & Foundations — Anthropic Academy | 2024
- ▶ 5-Day AI Agents Intensive — Google x Kaggle | Dec 2025
- ▶ Startup School: Prompt to Prototype — Google for Startups | Dec 2025
- ▶ Generative AI for All — Microsoft x Physics Wallah | Jan 2026

EDUCATION & TRAINING

Self-directed Technical Education | Google · Kaggle · Microsoft · Anthropic · Google for Startups
