PLAYER'S NOTES

Players are encouraged to make notes below here. Please don't edit anything above here.

Dr. Gomez: Seems to have no real idea about the secretive mission here in Bolivia. Abraham believes that he is just a doctor trying to do good.

Elana Barraí: She seems a little off of her rocker, it was only because of Enoli's power that she didn't come off like a madwoman. Abraham thinks we shouldn't push her more unless we need to.

The Mysterious Officer: Supposedly a devil wearing a man like a suit. Maybe the one that Abraham shot earlier? His name is Capt. Lafuente. He's a member of the Inner Night.

Lieutenant Rodriguez: Something wearing a human skin. The same creature as the mysterious officer and Captain Lafuente? Or a different one?

What is the Inner Night?
