

Name – Somya Mishra

Senior Expert (Shopify – Squarespace – WordPress)

Email – somyalinux01@gmail.com

Motto ➤ Quality is the utmost priority

Introduction ➤

I am an expert software engineer with 10+ Years of wide experience with Shopify, WordPress, and Hubspot CMS, and solid experience converting conceptual ideas into fully functional web applications. I've been working in the IT service industry since 2015, learning and improving along the way.

I have worked with many global clients in various industries, ranging from startups to Fortune 300 companies, scaled multiple MVPs to production, and led development teams on enterprise-level codebases. Proficient in both front-end and back-end frameworks along with relational / non-relational databases.

I specialize in writing clean and maintainable code and ensuring pixel-perfect UX/UI designs.
