

# Don't Text Your Ex!

**Unless you don't want them to be chasing you back!**

The craziest part of this one secret physiology concept holds **the key to winning your ex's respect, attention, and total FEAR of losing you again** but not even one in a *thousand* might even know it exists!

And those who do almost *never* share it with another soul.

**It happened... They broke up with you.**

You're consumed by anger and sadness.

Tears flow uncontrollably as you constantly daydream about your lost love.

As you listen to the music of your Spotify playlist, and the lyrics  
match your current situation

The sun seems darker, even in the summer.

The taste of food in your mouth felt dull and flavorless.

You couldn't tell the difference between black and white anymore,  
and everything appears in shades of gray.

While your friends and family console and comfort you, you want to  
try and fix what's broken.

You believe that this one is true love, and you keep holding onto the  
flickering flame of hope to regain their love.

Every corner of your house, and everything you do triggers  
memories of them.

And your heart whispers. "I want her back,"

"I should call him and plead...? Maybe she'll change her mind!"

---

## **I'm going to stop you right there!**

Before you run after your ex at the airport as if your life was a  
rom-com...

Many people would unintentionally drive their exes away because they  
didn't know what to do. How do I know? well simply because I've seen it  
many times before.

After 17 years of working with thousands of amazing relationships as a relationship coach, I've witnessed the incredible power of **This Special Physiology Concept** in winning back your Ex's heart.

I have **appeared on numerous TV shows and radio stations** as a dating expert, some of which are: 'Dr. Phil', 'The Tyra Banks Show', and 'Playboy Radio'

This is not just another far-fetched concept—it's a proven and simple method that works 100% of the time, and it:

- **Triggers their Fear of Missing Out! (FOMO)**
- **100% Raise their respect and value of you.**
- **Scarcity Creates Value!**
- **Tap into their need for unpredictability and leverage their fear of loss.**
- **Ignite obsession through the use of cliffhangers!**

**Imagine this:** After my clients sent a concise **12-Word Text**, their exes just couldn't resist the overwhelming desire to have them back in their lives.

---

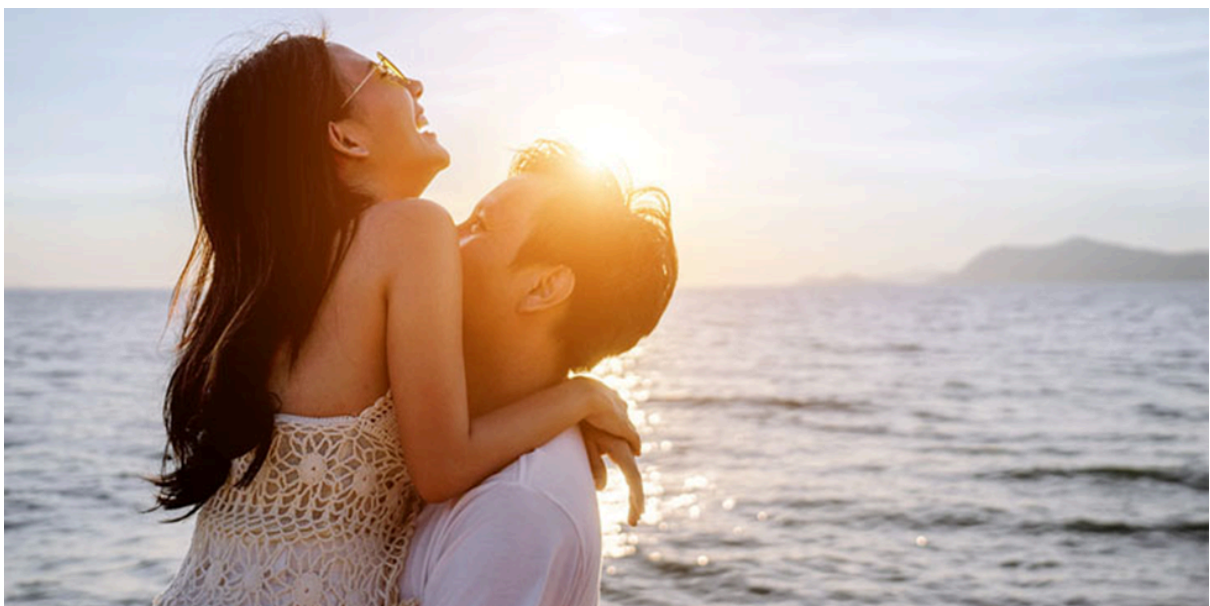

## STILL RELYING ON MIND GAMES AND CORNY TRICKS?

Because no matter how “hopeless” your situation seems right now...

- Even if you're *overthinking* your ex is **losing interest** after getting intimate with them too soon...
- Even if you've **given up hope** that your ex will ever commit to you...
- And even if he's been completely **ignoring your 8 missed calls and long-paragraph texts**.

Let me tell you something...

# You CAN Get Them Back!

And over the next few minutes, **I'm going to prove it to you** beyond any reasonable doubt...

Because I'm going to reveal to you a **single-psychology framework**...

It's called "**NO CONTACT**".

And it's a modern concept that you can use IMMEDIATELY to make them fall in **love with you again!**

**Emma V**

Lucia I love you! You are so generous and genuine!!! All your advice helps me so much. It is not an accident that your name means "Graceful Light" because you shed so much light on murky subjects. And I definitely am winning by being graceful and by not doing anything other than focusing on my integrity and happiness.

**Cristiana D**

Thank you so much. You're an amazing person with a good heart. I really think that someone sent you on this earth to cure suffering.

## **Ifeoma O**

You are simply the best! The strongest and the most inspiring. You encourage people to be strong and to remember their worth. Thanks for giving strength... and courage.

## **Private Client**

I just wanted to thank you for all your help with me getting my ex back. As I'm sure you know this was highly emotional. I pretty much did 5 months of no contact with once answering this is a lot to think about, 3.5 months in, and of course, she responded again. All of your advice was spot on and in particular the 45-60 days you could almost bank on it. Once again I can't thank you enough. You really change lives.

## **Larissa R**

You seem to be the only one who has a clue what you're talking about. I'm done with other dating experts forever. When they pop up on YouTube and I'm not fast enough to skip it immediately, I find it dumb as sh\*t and roll my eyes.

**L. Davis**

I consulted a psychiatrist on an issue I had already asked Lucia about. He gave me the same advice!

Everything I know comes from my own real-life experiences, the countless books I've read, interviews I've done with psychologists, psychiatrists, and other dating experts, and the experiences of my coaching clients. So believe me when I tell you...

**So by now, you're probably wondering what this  
'No Contact' is, right?**

This secret concept is the key to winning your ex's respect, attention, and total fear of losing you again.

Let me take a guess:

“After I broke up with them, I would wait until they contact me within 30 days, and if not then I could contact them, Right??”

## **Absolutely Not!**

Well, to put it simply, it's a recent modern-day dating technique to take power out of the other person's hands.

Before they know it, they will be overwhelmed with so much desire that they will be compelled to reach out to you.

We will both know the immense power this '**No Contact**' possesses.

The fact is, if you knew what to do then you wouldn't be here.

If you knew how to get your ex back you wouldn't be staring at this page right now while thinking of a way.

You are looking for answers.

**And that's why I'm here! to teach you the concept of No Contact, a strategy that has consistently delivered successful results.**

**Yes, you read that right—Constant successful results!**

And let me be clear...

I'd be a complete liar if I promised 100%, you're going to get their love back...

That's ridiculous, maybe you're dating an alien.

Or maybe you were dumped because you cheated or took your partner for granted.

But if you hadn't done those, I will promise you one thing...

If you follow this done-for-you roadmap...

**You can 100% get them back!**

**I promise you that.**

**But What Would YOU Do If They DID Come Back?**

Before I go any further...

I really want you to think about it.

**What would *your* life be** if they actually came back and continued the relationship, being even more loving than before?

Would you **open your eyes in your bed smiling** at them on a wonderful morning?

Maybe they'd be **your soulmate** who will always love you unconditionally...

**Imagine** all of your friends... or maybe the whole workplace... being jealous of you because you got the most loyal man in the room.

**Imagine** getting compliments from people, saying "Man, She's lucky to have you"...

**Imagine** catching the attention of every admirable couple in the room...

**That's what happened to my clients** when they used this system.

But first, let me just say...

When you can **make them anxious to lose you again** it feels like almost anything's possible.

**And I can guarantee you NONE of these things will ever happen:**

**NO MORE** perceived as **desperate, low value, red flag, confused.**

**NO MORE** suffering *deeply* from being **unconfident and lonely** all by yourself.

**NO MORE** scrolling Instagram reels for hours trying to **move on**, crying over their pictures to deal with your breakup.

And last but not least...

**NO MORE** perceived as a simp when you *DESERVE* the most Romantic Relationship in the world.

## So what do you think?

Would you be willing to take 10 minutes a day to learn **The Art Of No Contact** that could change your relationship, and ultimately your life, forever?

Please think about this carefully.

Because if you're just someone that likes the idea of manipulation...

But never actually want to love their ex back...

Do us both a favor and click the 'X' and leave this page for good.

Because this secret technique doesn't just work for life, it is dangerous!

If you're someone that would rather beg for your ex's attention,

Or would even SIMP do anything for them in this situation...

Then the *NO CONTACT* concept is not for you.

## **Because this is an exclusive technique only for those who are mature.**

And I should warn you... When you use this **no contact** on an ex for **the first time**, get ready...

Because they'll suddenly find everything about you to be more **alluring and mysterious** than any other **exes** on their radar.

But first, the best way for you to understand how you can use the 'No Contact' is to see how it worked for my favorite client.

### **I'd like you to meet my friend *Andrew*.**

He's a 24-year-old, 6 foot 4 guy with a strikingly attractive beard.

Despite his gentle nature and disciplined gym routine of 5 days a week.

He seems to have the worst luck when it comes to finding love.

One night, I got a call just as I was closing up the office to head home. It was Andrew.

I recognized him right away... but this time I sensed an aching pain in his voice.

So I rushed to meet him at Starbucks around the corner from my office.

From the cold blank look in his eyes and his hands being clenched very hard, it was obvious that it was really bad this time.

He then told me about Anya, a woman he met 6 months ago

They met at his best friend's wedding and instantly hit off.

She surprised him with lunch at work, called him every night, and they planned out fun and romantic dates.

But then, everything changed.

One day, he admitted everything in front of her, sharing his insecurities from a past relationship.

Suddenly, Anya started to lose respect for him.

Until three months later... She was suddenly distant & quiet.

***Anytime he texted her, she would respond hours later with short one-word replies.***

And even though she never meant to come off as "needy", he left 8 missed calls on Anya's cell phone that night and countless texts which he could see she'd read, but chose to ignore.

Andrew couldn't even close his eyes to sleep, so he called me to meet at Starbucks.

That brings us to the present when I saw him sitting there, staring blankly at the walls of Starbucks at 10 PM.

"Okay, Lucia, let me tell you what went down..."

"It all started when I had an exhausting day at work. "

"Out of the blue, Anya texted me, saying that she had been talking to my friends about my past."

"I know my past romance ended terribly wrong, and I still feel insecure about it."

"I thought she was someone I could trust, so I decided to tell her everything."

"And guess who decided to ring on my phone just now"

\*\*\*\*

Andrew: "Hey Ann."

Anya: "Hey can we talk?"

Andrew: "Sure, what do you need?"

Anya: "Your friends told me that you're just a desperate person and not someone to trust in a relationship."

Andrew: "Ann please, can we not discuss this right now?"

Anya: "I know I shouldn't let other people's opinions influence me, but can we talk about it?"

Andrew: "Okay... Here's the thing. My ex cheated on me.

At that time, I didn't have many close friends who truly understood my perspective.

But she went ahead and told her friends that I cheated on her first, for her own reasons.

And now, no one believes me..."

Anya: "Hey, you can tell me anything, okay? I'm here for you."

-----

"And just like that, the tears started flowing uncontrollably as I poured my heart out, telling more about my past."

"And as the clock ticked past midnight Anya was still there, calming me down. She patiently listened until I eventually fell asleep on the call."

***Andrew had no idea Anya was only saying the things she knew he wanted to hear.***

And that's the story of what happened before she stopped laughing at my jokes, our texts went dry, and she started ignoring my calls.

As we were engrossed in our conversation, Andrew's phone suddenly rang. It was Anya on the line.

To our surprise, she expressed her decision to end the relationship with Andrew.

After that incident, everything became clear to me.

I understood exactly what Andrew needed to do in order to win her back!

At that time, I have just finished the **No-Contact** E-Book after putting all the pieces from clients from the last 17 years.

Plus it is based on proven scientific case studies, And more importantly, personal experience.

I haven't released it to anyone yet because I have just finished the Book.

So, I took the opportunity to explain my insights and gifted it to Andrew to provide him with greater clarity.

At first, he was skeptical about it. So I told him that he could try all the common direct desperate DMS, 30-day ghosting methods, and even long-paragraph texts as most people do.

All of those common mistakes made my clients go further from reaching their exes.

After 30 days of reading, Andrew has mastered the art of ***no-contact!***

On day 45, Anya started reaching out to him, but he remained resolute in his decision to ignore her.

Finally, after 15 more days, she responded with a heartfelt message:

***"I've realized that I won't be happy  
without you in my life"***

**Look inside this book**

## See it for yourself:

**Stephani**

I can honestly say that I am so happy with him now. I backed off as you said to, and things are great! Keep up the good work.

**Lani**

You're absolutely right, I will take your great advice. Your answer now that you have said it seems so simple, why couldn't I figure this out? I love your column and your to-the-point, no-nonsense advice. You're the best!

**Mimi**

I'm in a very happy relationship with a new man who treats me like a queen. If I hadn't followed your advice, I would have ended up being where I was like a doormat. Your no-contact methods allowed me to respect and learn to love myself again.

## **Stuart F**

I did everything you said and it worked.  
Thank you.

## **Jessica.A**

You saved my butt and helped me have the strength to preserve my dignity, Lucia. Such great advice. He contacted me basically right at 60 days after I had already ignored him twice.

You were so freaking right... and your snippets about having faith were SO helpful. Who knows what the future holds, but at the very least, I'm SO happy I didn't reach out. I must have listened to your "30-day no contact rule is BS" video literally like 25 times to get through it.

## **Olga T**

You dismantle a lot of bullshit about the typical dating advice - contacting an ex after no contact.

## **Now let me ask you a critical question:**

If I meet you right now and ask for you to give me everything in your pocket in exchange for getting your ex back right now, would you do it?

If you love this person, then I'm sure your answer is a big "Hell yeah!".

Heck, I'm sure you would be willing to give everything you own to end your misery and get your ex back at this very moment.

You will give everything to get rid of that painful heartache you feel right now, won't you?

Think about the number of times in a day your mind wanders, daydreaming about what you could be doing with that person right now.

You can't focus on your daily activities because you keep seeing this person's face in your head over and over and over again.

You have tried partying hard, night after night, but the rush only lasts for a while - and then you're back again by yourself, lonely and thinking about what could have been.

Even your friends and family can tell there's something off about you.

And worst of all...the clock just keeps ticking. Life is not waiting for you. You have a limited amount of time on this.

Do you really want to waste it being miserable like this? Wouldn't it be best for you to live a happier life?

**The painful truth is that most exes when they go, are gone forever.**

**They never come back.**

I know it's a bitter pill to swallow but think about it...are you with your ex right now? How many of your exes have you gone back to?

Imagine all of your exes dm's you and still respect you, would you want that?

## **I can't wait for you to experience the same success as the many relationships I've coached!**

At first, I felt that in order to be fair to the people who paid up to \$1,000 for the same knowledge and not devalue the technique.

I had to at least charge the price of a single coaching session.

And **for just \$197**, I'm sure you'd agree that it's more than worth it. (Especially since this program is yours for life, and you can come back to it anytime you want...)

But after going on this journey together with you today, I almost feel like we know each other because I've helped past clients exactly where you are right now who are happier than they ever thought possible.

And I've also seen clients thinking that \$197 is too much to pay for a **lifetime of warmth, companionship, and securing your love back.**

How much is a lifetime of warmth, companionship, and securing your love  
back worth for you then?

And they let this same blissful happiness slip through their fingers... all  
because of a price tag.

I've learned my lesson. So I don't want that to happen to you.

That's why today I want to reduce the price even lower to **just \$97!**

But I want to thank you for spending your valuable time reading my  
page, and because if you've come this far, it's clear that you're ready to  
have this blissful happiness and romance for yourself.
