

Financial Literacy Arc of Learning 2025-26

Overview

New Visions for Public Schools is partnering with FRNYC to offer a number of professional learning opportunities for schools attempting to implement a financial literacy course for their students. This arc focuses on continued professional learning sessions (virtual and in person) for professionals. Sessions are offered for instructors, admin, counselors, and programmers and topics include curriculum, mapping financial literacy activities, facilitator strategies, and implementation. Future Ready Schools must choose from two models for financial literacy implementation. The sessions below are designed to support either model.
