This is a learner diary that I would like you to use during this course. It has two main purposes:

- 1. to record what you think you learn during class, for example new vocabulary, a new expression, correct pronunciation, something new about verb forms, etc.
- 2. to record what you do in your free time to expose yourself to English, for example watch a movie in English, listen to the radio in English, write an email in English, etc.

Please try to add some information every day or every other day.

We will also sometimes use this diary for writing activities that I can then correct.
