General Guidelines for Distance Learning Opportunities

1. Set aside an area in your home where there are no distractions.
2. Complete one assignment per period for each class.
3. Set a timer for 30 minutes for each class/assignment.
4. Take a quick 2-3 minute break if you feel that you're getting frustrated and take deep breaths.
5. Be sure to read through each assignment--if you don't know how to say a word or don't know what the word means, look it up on Google. *Understanding how to say a word and the definition of a word you don't know is key to reading comprehension (understanding what you're reading) and will improve your reading skills.*
6. This is the time to build perseverance and resilience--if you're not sure about an answer/the assignment, make sure to contact me. Do NOT give up. You can do this!
