### **Cinnamon smell**

Sometimes memories are forgotten, hidden in some corner of our mind. But a particular smell is enough to refresh our memories and return us to our childhood, to our house and our family parties always surrounded by many people waiting for the dessert and its delicious smell, waiting for the cinnamon and hot milk, the custard pudding or the rice pudding. It's spring and the memories of our childhood always come back with the smell of cinnamon and hot milk.

I like a lot all kind of food but mediterranean food is the best. Mediterranean food is delicious because normally it is prepared with fresh vegetables and fish. I love fish and I can't imagine life without it. Always in my family when we have some birthday or something to celebrate we go to one of the best restaurants in Ibiza and always we order fresh fish with some salad. Sometimes also I go fishing with my friends and we catch some fish, after we do a nice diner with this fresh fish. It is delicious!
