

# Usability Testing Plan

## Objective

To test, refine, or validate functionality around the interactions around the [feature(s) of application/product/etc]

## Format

- Will conduct [#] test plus one pilot test
- Will be using interactive prototypes
- Will conduct [onsite/remotely. Specify location or software that will be used]
- Will record each session

## Scenario

*Describe the information a user will need to put themselves in the right mindset for the test. This should include location, purpose, and intent relative to the Tasks.*

## Assumptions

- [list out the items that we assume the user will need access to to complete the tasks]
- [this may include things like login information to the application, prior knowledge of the product, etc]

## Tasks

#	Task	Goal	Perfect Part
1	<i>As a user I want to.... so that I can....</i>	<i>Find out... Verify that...</i>	<i>Go to... Then do...</i>
