

A Friendly Reminder from the Nurse!

Hello Parents,

In the next couple of weeks some of you will receive a letter from MPS informing you that your child is behind schedule in receiving required immunizations. At this point all of our school immunization records have been updated using the Wisconsin Immunization Registry. It is possible that your child received immunizations but the registry was not updated, therefore that immunization would be listed as "behind schedule" in our school records. In that case, you would need to provide your child's immunization dates in writing from your healthcare provider to the school. You can view the immunization records that the school has on file for your child in the parent portal under the "health" tab. See the attached flyer for information on free immunization clinics in Milwaukee. Please contact me if you have questions or if you need an immunization waiver form. Thank you for your help in keeping all of our kids healthy this school year!
