

New Swipe - Geared Towards Introverts

Subject Line:

What About Introverts? Can They Sell to Restaurants Too?

Hey Everyone!

I've been telling you about how my friends Jeanne and Sue (and their new friend, Mary Lee) go out to eat and make sales. But what if you live in a very small town and don't want to travel, or what if you're just an introvert and this doesn't appeal to you? Can you still make this work?

The short answer is YES!!

This question came up, and I talked to Jeanne and here's what I've discovered:

The Restaurant Income System includes full training on getting clients with LinkedIn Messaging, Email (they're writing some templates for you), Facebook Messenger and even the old-fashioned US Postal Service.

So even if you're not a person like Jeanne, who never meets a stranger - THIS WILL WORK FOR YOU!

Remember, they coached Mary Lee, (who, BTW, is an introvert) into a \$4K/mo income in just 11 weeks.

Be sure to watch Jeanne's short video on the sales page to hear the whole story. It's a MUST SEE!

Want to Eat Out and CASH In? Read This True Story...
Do You Eat Out? Why Not Do It for F.REE?

Happy Holiday!

Yep, you read that right - Learn to eat out and CASH in! My friend Jeanne Kolenda tells you a true story of a dear friend who lost everything in a recent hurricane. Jeanne and Sue taught her how to eat in restaurants for free, and build a recurring income in just 11 weeks.

BTW...so you thought restaurants don't pay well? Think again. Owners have the budget for anything that works...and our success is proof. The system is easy to fulfill, much of it can be set on auto-pilot and just a few of these wonderful clients can work magic for your bank account!

The results? Mary Lee built a \$4K/mo income in about 11 weeks with very little stress...just by learning how to approach the same restaurant owners where she was already a customer.

No “foot-in-the-door” needed - her foot was ALREADY in the door! LOL

In this powerful training, you'll discover exactly how to make this happen FAST, and we'll give you everything you need to get started... and you'll add restaurants to your portfolio practically overnight.

This is PERFECT for newbies, as well as seasoned pros who want to add another EASY revenue stream. You qualify for this offer if you need additional income (and you like to eat!).

[Click Here] and watch Jeanne's video showing the 'magic' for the first time.

You can start cashing in while eating out.

The BEST Foot-In-The-Door! (It's Not What You Think!)

No Foot-In-The-Door Needed (It's Already Done! - Open to See How)

Hey there!

Do you ever get sick hearing about getting your "foot in the door?"

Every marketing system seems to emphasize that, but I found something that STARTS with your foot in the door already! (Literally)

Normally, you're always the "outsider" trying to get the full attention of some business owner you KNOW needs what you have, but with this system, you're already in the door and welcomed by the owner.

How would you like to turn the tables on the typical cold-call scenario? How would YOU like to be the one your potential client is thanking for showing up?

Jeanne and Sue have perfected the "no-pitch" pitch that lands restaurant clients every week... just by eating out. They helped their 73-year-old friend, devastated by a hurricane, build an income of almost \$4K/mo in just 11 weeks!

In the course, "Restaurant Income System," you'll learn exactly how to make this happen for YOU - all the training is documented...from closing the sale to fulfilling these simple processes. I was amazed at how easy they make this. It's filled with quality videos, transcripts, and support.

Now, start off right in 2020...quit struggling...end money worries...start enjoying your business.

This is for YOU!

Don't You Love a True Story that Inspires?
If Mary Lee Can Do It - So Can YOU!

Hey Folks,

Marketing emails these days are full of the same kind of things...so much so, my eyes glaze over and I know yours do, too! Buzz words...cold email scripts, push-button easy, how to...(you name it), PROVEN systems for (you name it), earn \$1K a day...yada yada.

BUT, how about a true story about a 73-year-old lady who lost her house all her belongings in a recent hurricane (3 months ago)...a lady who had NO experience with online marketing...and who now has built a \$4K/mo income in just 11 weeks? All this is absolutely true!

And how did this happen? My friends Jeanne and Sue took Mary Lee under their wings and coached her to easily close deals with restaurants...just by eating out and following their coaching instructions on what to say to the managers.

She has about 10 clients now, offering simple, easy-to-fulfill services that are repeatable. All this is fully documented in Jeanne's new course, "Restaurant Income System." So, no matter if you're a newbie, looking to start off 2020 with a nice side hustle, or a seasoned pro looking to add another revenue stream to your bottom line...this is for YOU!

Jeanne and Sue are seasoned pros...Sue is managing about 40 local clients and is the master of systems. Jeanne is well known for her "Micro Service Empire," offering Social Content Posting. They are laying this all out for you, and when you realize you can even barter your dining out budget, it becomes a MUST HAVE!

Let Mary Lee's story inspire you...Click below and listen to Jeanne's short video explaining it all.

You can thank me later.
