Guidelines for Professional Experience Placement

I General Provisions

- 1. These guidelines define the contents and organisation of traineeship in the School of Digital Technologies.
- 2. The guidelines are enforced following Article 12(5) of Tallinn University Study Regulations (Tallinn University Senate regulation No 15 of 15th June 2015) and based on Professional Placement Implementation Principles in Tallinn University (Order No 19 of 31st January 2011 of the Academic Vice-Rector of Tallinn University).

II Purposes, Contents, Learning Outcomes and Other Terms of Traineeship

- 3. Traineeship is a targeted activity organised for achieving learning outcomes and oriented at the implementation of acquired knowledge and skills in the working environment.
- 4. The aim of professional placement is to support the achievement of study programme's learning outcomes.
- 5. A brief overview of the professional placement including the purpose, learning outcomes and assessment form is established in the course description, and is available to the public as prescribed in the study regulations.
- 6. The subject coordinator of professional placement compiles the placement course programme and makes it available in SIS, the study information system, and defines the following in addition to the information included in the course description:
 - a. the requirements for the host and the activities acceptable as placement;
 - b. the list of documents submitted by the student before the placement;
 - c. the requirements for completing the placement, and the documents and papers to be submitted by the student during and after the completion of placement;
 - d. the placement assessment methods and criteria.
 - III Organisation of Traineeship
 - 7. Professional placement is to be completed: during the MA studies, generally in III semester. If the placement is taken between semesters (June-August), a prior approval should be established between the subject coordinator of the placement before the Traineeship starts.

- 8. The suitable host in Public and private sector institutions and enterprises providing various governance services is chosen by the student and approved by the subject coordinator of placement beforehand.
 - 9. If necessary, a student can change the host or be on placement with several hosts.
- 10. The professional placement can be completed abroad in case of prior approval of the subject coordinator of the placement.
 - 10.1. Professional placement abroad requires a respective order by the Director of School of Digital Technologies.

IV Roles of Parties of Placement

11. The student shall:

- a. submit to the university-based placement supervisor for approval a standard format placement registration sheet (Annex I) stating the placement organisation, placement supervisor(s) and approved aim of placement, completion time and, if applicable, the placement plan;
- b. register himself/herself to the respective placement subject in SIS before heading for the placement; students starting professional placement in the summer shall coordinate the intended placement with the university-based placement supervisor during the spring semester by the deadline stated by the School and register to the placement subject in SIS the next autumn semester;
- c. prepare a placement agreement (Annex III) and arrange the conclusion thereof with the host;
- d. submit a standard format self-assessment form (Annex II), a professional placement report (Annex IV) and other documents (Annex V) stated in the course programme after the completion of placement.
- 12. The university-based placement supervisor shall:
 - a. introduce in the format established in the course programme the rules of organisation and the completion of the professional placement to students;
 - b. approve student's professional placement registration form;
 - c. if necessary, provide the student heading for the placement with a cover letter;
 - d. if necessary, organise the completion of a tripartite agreement in School of Digital Technologies in the form provided in Annex to professional placement guidelines (Annex III) or in the form proposed by the host;

- e. instruct the student in the setting of the aim of the placement and in the compilation of the report;
- f. provide an assessment of the student's performance of the learning outcomes after the completion of placement;
- g. if necessary, contact the host regarding the student's ability to manage the tasks assigned on placement and other issues relating to the performance of placement.
- 13. The host-based placement supervisor shall:
- a. be involved in the compilation of the student's placement plan;
- b. give relevant for profession assignments to the student on placement;
- c. guide the student in the completion of the tasks and oversee the student's work
- d. provide an assessment of the student's learning outcomes of the placement and fill in an assessment form upon the completion of placement (Annex IV).

V Professional Placement Report and Assessment

- 14. In the placement report, the student provides the general description of placement and the assessment of the activities oriented at achieving the placement aims stipulated in the course programme.
- 15. The assessment of the placement takes place after the completion of the placement pursuant to terms established in the course programme and the assessment criteria defined in the course programme.

Annex V

Professional Traineeship in Open Society Technologies Programme

6 EAP (156 h)

Duration: 4-14 weeks, 1.09.2020 - 18.12.2020. (With the earlier agreement the practice conducted at summer months is valid)

Preconditions to traineeship: The student has completed at least 30 EAP from the curriculum.

Traineeship institutions: Public and private sector institutions and enterprises providing various governance services.

Parties and roles during traineeship:

Students attend the Induction seminar (1) to get instructions for traineeship. Students are responsible for maintaining between the parties the Traineership documentation (Annexes I-IV). Students are responsible for finding the traineeship place. Students with the guidance of a practice supervisor find and agree about the traineeship institution and the period (Annex I). Students attend the Induction seminar, Feedback seminar and Assessment seminar conducted by Tallinn University practice supervisor. Students report about the activities (Annexes II, IV).

Students at traineeship are supervised by the **supervisor** assigned by the practice organization. Neither the students nor the supervisor are paid for the traineeship tasks by Tallinn University. Students are responsible for completing the agreed tasks in the traineeship institution under the assistance of a supervisor from the traineeship institution. The supervisor from the traineeship institution provides and agrees about tasks (Annex I), provides assistance when needed, and writes the feedback to the students' accomplishments (Annex IV).

Practice is monitored and curated by the **practice supervisor** from Tallinn University for Open Society Technologies curriculum. The practice supervisor organises 3 practice seminars at Tallinn University: Induction seminar provides instructions and requirements (September 2020); Feedback seminar organises discussions among students at traineeship (November 2020); Reflection seminar (December 2020) validates students' traineeship presentations and reports. The practice supervisor organises 3 observation visits to public and private sector institutions and enterprises providing various governance services. Practice supervisor assesses the traineership reports (Annexes II, IV).

Required documents: Annexes I and III are submitted before placement, Annexes II and IV are submitted after the placement.

Traineeship contact seminars (56 h):

• Induction seminar (September 2020)

- Feedback seminar (5.11.20) By this time prepare your visit reports so that you can share. Upload into the folder:
 https://drive.google.com/drive/u/0/folders/190jDlFn7UN3IRgSbOZPrcIeNbr4-3Y6t
- Reflection seminar (17.12.20)

Traineeship tasks (100 h):

I. Observation visits (50 % of the traineeship). The student attends at least 3 observation visits to institutions providing open society services.

The observation visits are documented as follows (1 page):

First part (a-e) has to be prepared before the visit and should be completed after the visit.

- a) Place of the visit
- b) Website, contact information
- c) Short overview of <u>one</u> digital governance service provided by the observed institution.
- d) Short overview of the data generated by this service (openness of the datasets)
- e) Questions to the organisation (2).

Observation reflection: The main tasks and competences for the open society technology students needed in this institution.

- Upload into the folder by the meeting in November 5.11.20: https://drive.google.com/drive/u/0/folders/190jDIFn7UN3IRgSbOZPrcIeNbr4-3Y6t
- II. Traineeship activities at placement institutions (50 % of the traineeship).
 - Conducting the the evaluation of one provided digital governance service (e.g. SWOT analysis, data openness analysis)
 - Developing some documentation for the organization
 - Conducting some design tasks for the organization
 - Participating in team activities
