“Green Voices” Podcast Task

Dear teachers,

Please discuss the environmental issues in your city/country with your students and choose two or three important ones. Write them down in the shared document.

These topics will then be randomly assigned to other partner schools. Each partner will create a podcast episode for “*Green Voices*” based on the topics they receive.

Stela Kamberi - Petro Nini Luarasi High School, Tirana, Albania	1. Air pollution is one of the most urgent problems in Tirana. Students should focus on it because it has serious effects on health, especially causing breathing problems, allergies, and long-term diseases. 2. Traffic Congestion is another major issue that students experience every day. It increases stress, wastes time, and leads to higher levels of pollution and noise. 3. Loss of Green Spaces is a growing concern due to rapid urban development. Students should focus on this issue because green areas are essential for clean air, mental well-being, and biodiversity.
