

LoginPress | Add Vimeo and DailyMotion video compatibility in LoginPress video background

A Plugin for WordPress By LoginPress

Pre-requisites of Projects:

- Set-up of Local by flywheel: <https://localwp.com/>
- VS Code: <https://code.visualstudio.com/download>
- Understanding of Custom Login Page Customizer functionality and its Code Base: <https://downloads.wordpress.org/plugin/loginpress.3.0.5.zip>

Compatibility of Projects:

This feature must be compatible with the latest versions of WordPress (6.4.3) and PHP (8.3) and their previous versions.

Task:

LoginPress can add a video background on the login page. It supports local Media and YouTube right now.

BACKGROUND VIDEO

Enable Background Video?

Medium

☒ Media

☐ YouTube

Background Video:

Select Video

Your challenge is to add the Vimeo and DailyMotion video compatibility in the LoginPress customizer. The new feature should work in Customizer and on the login page.

Task 2:

Customize the Eye color with the label color.

INPUT FIELD LABELS:

Input Field Label Color:

Select Color

By changing the Input field Label Color from the customizer, the Eye color (that exists on the Password field) will be changed concerning it.
