

Hi, Ava/Georgia/Sergio/Cristhian.

I love the way your website and social media stand out from your competitors. They all show a vibe of encouragement for your students to do 100% but in a friendly way, which can encourage everyone to try martial arts.

I'm contacting you because I want to partner with you and help your business reach its full potential.

As a digital marketer, I help businesses achieve their biggest dreams.

After analyzing your brand, I've noticed 2 key areas that can be improved which will attract more people to work with you

My offer is entirely risk-free, I only require money after you are fully satisfied with the results of my work. I'm committed to delivering results that satisfy you.

Don't let this opportunity slip away. I'm eager to discuss how we can elevate Haritos to new heights.

I look forward to your positive response.

Best Regards,

Łukasz Hartowicz
