Project Design

Complete the activity below for **at least** three of the topics you identified in the Learn, Solve, Make, Do activity. See the [Project Design activity](#) for examples.

[Upload your completed Google Doc to your Launchpad Profile.](#)

Topic:

1. *Write down the general topic.*

Animals

2. *Add one or two specifics to the general topic area.*

Animals in zoos not being fed

3. *Turn the topic into a question and fine tune it. **Questions should not be yes/no or able to be answered with one or two words.***

What is a creative way to get food to animals everyday while giving jobs to those in need

4. *Describe the final product you would have for a project that addresses this question.*

Create a program that takes meat from stores that are disposing it and gives it to animals in need.

5. *Share your idea with another person and get their feedback on your idea and take notes.*

-Too complicated

-Nobody is going to want to work for free in times like this

Topic:

1. *Write down the general topic.*

300 pushups a day

2. *Add one or two specifics to the general topic area.*

An effective way to do 300 pushups for 1 month straight

3. Turn the topic into a question and fine tune it. **Questions should not be yes/no or able to be answered with one or two words.**

How can I come up with a way to effectively do 300 pushups everyday for 1 month straight?

4. Describe the final product you would have for a project that addresses this question.

I would take a time lapse of myself doing 25 push ups every 30 minutes for 6 hours

5. Share your idea with another person and get their feedback on your idea and take notes.

- Not an idea for a school project
- Unnecessary

Topic:

1. Write down the general topic.

Basement

2. Add one or two specifics to the general topic area.

I want to apply what I've learned in school to help my dads friend finish his basement

3. Turn the topic into a question and fine tune it. **Questions should not be yes/no or able to be answered with one or two words.**

How can I apply what I've learned in school to help my dad do something nice for his friend?

4. Describe the final product you would have for a project that addresses this question.

I would have a slideshow with different pictures of the basement throughout the completion process explaining how i'm applying my knowledge
