

Christmas Wrapping at South City Mall

4 people a day, 2 shifts - morning shift 2 hours, afternoon shift 3 hours.
Only 2 people in the booth at a time, unless you're all in the same bubble...

Here are the requirements from the management of South City:

- Gift wrappers are required to wear a face mask
- As they are in a close contact role, it would be preferred that the guys working are vaccinated. (if they are not vaccinated they are unable to sit in the food court or mall seating, but can be provided takeaway options to eat outside of the centre)
- Hand sanitiser etc will be provided
- Customers are not required to present vaccination certificates at the gift-wrapping bay – as it falls under the general retail category. However it is still a close contact role with customers
- A tidy standard of dress will be required, preferred black t-shirts etc and black pants, skirts would be ideal. We supply aprons
