

SHORTEN THE CABLE CAR HOURS OF OPERATION

San Francisco's cable car lines run until nearly 2 AM each night and start up less than four hours later, around 5:30 AM. **Almost no one rides them after 11 PM or before 7 AM.**

These unnecessary hours of service have numerous negative impacts: **wasted electricity**; **wasted money**; **wear and tear on the cars**; **noise pollution**; **traffic congestion** and others.

Help us recommend that SFMTA change the hours to have daily **first car at roughly 7 AM and last car departure at 11 PM.**
