

NAME OF CLUB: Environmental Club

ADVISORS: Mrs. Bharatan

DESCRIPTION: Students interested in the environment, climate change and energy conservation will meet after school the 4th Thursday of the month. We will plan and implement projects to improve the environment and energy conservation in the school and community. We welcome creative ideas that would help us understand the impact of climate change and fossil fuel consumption. We will generate ideas to create a greener, cleaner Earth by following the Reduce, Reuse, Recycle theme.

Any student can participate in this club. We will meet on the 4th Thursday of the month. We aim to collaborate with other clubs during the year and we also plan to have a poster contest sometime in spring.
