

SUPERINTENDENT WINTER NEWSLETTER

BEST WISHES FOR THE NEW YEAR!

Dear EL Warriors and SCCTC school communities, On 12/20/23, I shared my newsletter with you explaining that our goal at ELSD and SCCTC was to focus on the experiences that we provide through the practice of “Being a Good Human” and yes; I can honestly say that our employees work towards this goal each school year. **My message to our students and staff this school year has been to “take care of one another.” Why? When a current senior expressed to me earlier this school year that he has experienced the passing of a classmate each year over the past 5 years. This hit me harder than any body shot I received in boxing over the years!** Therefore, this is more reason that we need to take care of one another. And what does that look like? It may mean to just listen to someone who is struggling in any fashion of life or letting someone know; although we may not be close friends, if you ever need someone to talk or vent to, I’m here for you. As parents and educators, it’s our responsibility to teach kids what

empathy looks and sounds like. Not all kids or even adults will get it because of their own demons they may be facing but I’m confident; most will. Lastly, I’d like to share the link below from our school website that I am very proud of with regards to our administration. If you have trouble accessing the link below, please visit our district website and click on the banner at the top of the page “More Info.”

Bob Galella,
Superintendent
Or a.k.a by staff and
students “Bobby G.” or Mr.
G. or as some
Kindergartners say, “Mr.
Gorilla”

*Be Well! And let's take care of
one another!*
