

joho <NAME>!

I know you are busy playing Monopoly in real life,

But I wanted to share something that your competitors have implemented to scale their business, but you haven't!

Your competitors like Kris Krohn, David Olds, and Ben Alistor have implemented email sequences to scale their business,

Once set up you will see why your competitors are using them.

Imagine scaling your Airbnb business by doing nothing while traveling the world and enjoying 5-star hotels.

To show you how confident I am that the email sequences will be a game changer,

I want to offer you a completely free email sequence trail that you could use, just to prove to you that it would build rapport, shift readers' beliefs, and get you some extra revenue for your bottom line.

I've harnessed the power of my creativity to craft this 1 out of 5 emails <FV>

If you want to see the rest let me know with a simple 'yes', so I know that you are serious about it!

Best of luck,

Reinis
