**Synopsis:** The format is provided to make it easy for you to write your synopsis. Before you encode your paper, have this file saved first for reference as there is a possibility that the format is distorted due to cut and pasting of texts from other files. Preferably, the Synopsis must not be more than 10 lines. The synopsis must contain the short description of what happens in the audio-video material (e.g. short film / video documentary). The audio-video format of your paper is intended to make the take-home message of your study easier to digest.
