Experience

No-Toil Industries

Website Developer | Yuba City, California | January 2022 - Present

- Researched, developed and implemented an inventory tracker application | *Python, Django, Javascript, React.JS*
- Anticipated the needs of [other workers]
- Maintained the main website | *Wordpress*

Skills: Python, Django, Javascript, React.JS, Wordpress

Book of Mormon Central, Utah County, Utah — Intern, Website Migration Assistant

January 2021 - August 2021

I helped transfer information from sources by religious professors onto a website on a new domain. This website can be found at DoctrineAndCovenantsCentral.org

Hours spent at this internship: ~120 hours.

Skills: Wordpress, Javascript

EDUCATION

Brigham Young University - Idaho, Rexburg, Idaho — Software Engineering Major, Photography Minor

January 2017 - December 2022

PROJECTS

Elijah Harrison Photography — Amateur Photography Business

<https://www.instagram.com/ejhfotos/>

Skills: Photoshop, Lightroom, Studio Photography, Portrait Photography, Product Photography

Sovereignty — Game Development Project

Demo version of game concept using the Godot Engine that I am helping working on. It is a 2D Souls-Like RPG.

Skills: Godot Engine/Godot Script

I've spent about 30+ hours on this project, and plan to spend at least another hundred.
