

System Requirements for CNDO

Last Updated: 27.11.2023

Thank you for choosing CNDO. To ensure you have the best experience with our app, please review the following system requirements.

iOS Requirements:

- Operating System: iOS 11.0 or newer
- Device Compatibility: iPhone 5s or newer, iPod Touch (Apple Vision Pro), iPad Air or newer
- Mac Compatibility (for Developers): macOS 11.0 or newer, Mac with Apple chips

Android Requirements:

- Compatibility: Please check the list of compatible Android devices ([Android Devices CNDO.csv](#))

Please ensure that your device meets these requirements to enjoy the full functionality of CNDO. If you have any questions or encounter any issues related to system requirements, please contact info@cndo.club.

By using CNDO, you agree to abide by these system requirements as outlined in our terms and conditions.

Disclaimer:

The system requirements listed above are subject to change without notice as our app evolves and is updated. It is the responsibility of the user to regularly check for updates and ensure that their device meets the latest requirements for [Your Mobile App Name]. While we strive to provide compatibility with a wide range of devices and operating systems, we cannot guarantee full functionality on all devices or configurations. If you have any questions or encounter any issues related to system requirements, please contact our customer support team for assistance.
