Waiting Child Advocacy File

First Name: Daniel

Country of Birth: Bulgaria

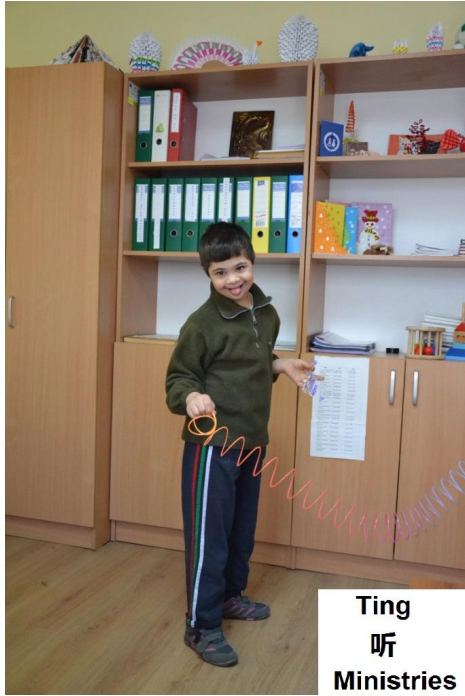

Birth Year: 2001 - Daniel is at risk of **AGING OUT!**

Special Needs: Down Syndrome, moderate physical and mental delays

Other Information: Daniel is described as an “affectionate and loving” child who can recognize his emotions and the emotions of others. His favorite activities are playing with a ball and listening to music. Though his motor skills are not well developed, he can catch and throw a ball accurately. Though he is largely nonverbal, Daniel understands simple instructions and reacts when he hears his name. Daniel needs help developing self-care skills, but he can eat independently. Imagine how he would thrive with a family to love and guide him! Please contact us for more information.
