

Dr. Cheri Dodge-Chin

Cheri Dodge Chin is an Assistive Technology consultant, adjunct professor, doctoral-level mentor, and published researcher. With over 20 years of experience as a speech-language pathologist, she has worked across pediatric private practice, rehabilitation, clinics, and schools. She holds doctoral degrees in both Education and Speech Pathology and a master's degree in Speech Pathology.

A pioneer in SLP blogging and social media, Dr. Dodge was among the first SLP bloggers. Her blog, Super Power Speech, features over 700 posts, and she has developed more than 300 resources to support AAC, language, articulation, and social skills. She has delivered presentations at local, state, and national conferences.

Dr. Dodge is a member of the Oregon Speech and Hearing

Association and the American Speech-Language-Hearing Association.

Session Description

Monday, April 7

12:45-2:15 pm

AI Prompts for Therapists: Boosting Productivity and Creativity

This session will explore how to create and implement AI prompts to enhance productivity for therapists, including PTs, OTs, SLPs, special education teachers, and administrators. Through hands-on activities, participants will discover how AI can streamline time management, support goal writing, generate creative therapy ideas, assist in finding evidence-based practices, and improve communication. Attendees will leave with practical strategies to integrate AI into their daily practice, making therapy planning more efficient and impactful. Please bring a personal computer for use during the session.
