Description of Course:

Second grade art is aligned with the National Core Art Standards: creating, presenting, responding and connecting. Second graders will continue to develop the art skills introduced in First Grade. They will use a variety of media, including media in the content areas of drawing, painting, sculpture, and fiber arts. Second grade students will learn, and participate in, proper studio care. They will be introduced to traditional and contemporary techniques. Second grade students will identify works of art and artists from multiple cultures and time periods, including contemporary artists and works.

Second graders will make cross-curricular connections. Second grade art students will be encouraged to make personally meaningful choices in the creation of their artworks. They will be encouraged to become lifelong learners in the area of visual arts.
