Falconry In Texas

A Live Falconry Presentation from Hays Clan Falconry

Presented by Clyde & Sarah Hays — Licensed Falconers, Authors, and Farmers

What to Expect: A Rare Glimpse Into the World of Falconry

Step into the ancient art of falconry with a live, educational experience designed to fascinate students and spark curiosity about nature, animals, and conservation.

Program Highlights:

Meet the Hawks

Students will meet a real trained hawk (or two!) and learn about their role in the wild, their personalities, and how falconers train and care for them.

Read-Aloud & Falconry Tales

We'll share a short passage from our book "*Year One Falconry*", giving students a firsthand account of what it's like to become a falconer.

Interactive Q&A

We welcome curious minds! Students can ask questions about raptors, farm life, falconry, and the natural world.

Falconry & Conservation

Learn how falconers play a critical role in protecting raptor populations—many of which wouldn't survive without intervention.

Falconry Bookmarks for All

Each student receives a collectible falconry-themed bookmark to remember the day.

Why It Matters:

This isn't just a bird show. It's a journey into:

- *History and heritage (with Clyde in his traditional kilt!)*
 - *The science of raptor behavior*
 - *Real-world conservation*
 - *And the connection between humans and nature*

Whether your students are curious about creatures, captivated by flight, or just love a great story—this is a visit they'll remember for years to come.

Let's bring the wonder of falconry and the heart of Hays Manor to your school!

Our nonfiction book **“Year One Falconry”** is available on **Amazon** and has become a go-to resource for beginners and young enthusiasts interested in birds of prey and the art of falconry. Blending personal experience with practical knowledge, it's an accessible and engaging introduction to a world few get to see up close. With praise for its clarity, authenticity, and educational value, the book is a perfect addition to school libraries, nature programs, or classrooms looking to explore wildlife, conservation, and ancient traditions still alive today.

Contact us to schedule a lively presentation packed with joyful fun, engaging storytelling, and unforgettable falconry adventures.
