

Privacy Policy for Lap Tracker

Last Updated: September 27, 2026

Lap Tracker is developed by Prince Boateng.

1. Information We Collect

Lap Tracker does not collect, store, sell, or share your personal information.

The app is designed to provide lap and split timing functionality without requiring you to create an account or provide personal information.

Timer data, lap times, split times, and other information you create while using the app may be stored locally on your device for the purpose of providing the app's features.

2. Location Information

Lap Tracker does not collect or share your precise location unless a future version of the app specifically introduces a location-based feature and clearly requests the appropriate permission.

3. Health and Fitness Data

Lap Tracker does not collect or share HealthKit or other health information unless such functionality is explicitly introduced in a future version of the app.

If health or fitness integrations are added, this Privacy Policy will be updated to explain how that information is handled.

4. Analytics and Tracking

Lap Tracker does not use personal-data tracking for advertising purposes.

We do not sell, rent, or share your personal information with advertisers or data brokers.

5. Third-Party Services

Lap Tracker does not share your personal information with third parties.

If third-party services are added in a future version of the app, this Privacy Policy will be updated to describe the services and the information they may process.

6. Data Security

Because Lap Tracker does not collect personal information on our servers, we do not maintain a database of users' personal information.

Information stored locally on your device is protected by the security features provided by Apple and your device.

7. Data Retention and Deletion

We do not retain personal information on our servers.

You can remove locally stored Lap Tracker data by deleting the relevant data within the app, where applicable, or by deleting the Lap Tracker app from your device.

8. Children's Privacy

Lap Tracker does not knowingly collect personal information from children or any other users.

Because the app does not require users to provide personal information, no personal information is intentionally collected from users.

9. Changes to This Privacy Policy

We may update this Privacy Policy from time to time if the app's features or data practices change.

Any changes will be reflected by updating the Last Updated date at the top of this policy.

10. Contact Us

If you have any questions about this Privacy Policy or Lap Tracker's privacy practices, please contact:
