Hello Stargate! I have served as the elementary Adroit teacher since its inception in 2016. (Before then, I was a 3-4 classroom teacher). I have built this program from the ground up for K-5th grade and it is my passion! Students learn the design thinking process with a focus on the design thinking mindsets.

I have been teaching at Stargate since 2006. I have my MA in Instruction and Curriculum as well as my GT endorsement. Before I became a teacher here, I was a parent of two amazing Stargate alums, my son, who attended Stargate beginning in 1999, and my daughter, who was in the inaugural Kindergarten class.
