

Signum Regional Moot Recording & Privacy Notice

To provide a hybrid experience, all Signum regional moots are broadcast and recorded via Zoom for registered attendees only. By registering for an in-person ticket, you acknowledge and consent to the following:

- **Recording Consent:** Your physical presence at the Moot signifies your consent to be included in the live Zoom broadcast and the subsequent recordings.
- **Use of Recordings:** These recordings will be made available exclusively to individuals who have registered for the Moot, not the general public. Appropriate Signum staff will also have access to the recordings.

For Remote Attendees

If you wish to maintain your privacy, please use a Zoom display name that does not identify you (e.g., "Gardening Pro") and keep your camera off.

Please note: If you actively participate by turning on your camera or speaking on microphone, you are providing direct consent to be recorded. Signum University will not edit recordings to remove such contributions, and your display name may be visible.

Your Choice & Control

We understand that not everyone wishes to be recorded. If you do not consent to the terms above, we offer you two options:

- **Switch to a Remote Ticket:** We can refund the price difference and change your registration to a Remote Attendance ticket.
- **Full Refund:** We can provide a full refund of your ticket price.

To request a change or refund, please contact us at events@signumu.org before registration closes on the day of the Moot.
