

2/4/25 IC Meeting Summary

Share this information with your departments.

[Use this link](#) for future IC agenda requests.

Reference today's [minutes](#) for further details. Next meeting is **February 18th**.

Nuts and bolts

Bell schedule is regularly updated and is the best place to look at for daily schedule questions. It is on the internal website, but here it is linked as well:

 [Bell Schedules SY 2024- 2025](#)

There is a meeting on Friday for IC chairs, fed reps, curriculum people about HB 171 (new graduation requirements). If you have any questions or want anything brought up, make sure it gets shared in the chat so Caitlin can bring it to the meeting. This was in the AHA internal site, but here it is linked. It begins on slide 35.

 [HB171/ 25-26SY Master Scheduling/ Course request](#)

IC rep action item: remind them about the calendar; review HB 171 in collaboration and collect questions for Caitlin (share in the chat)

Spring Panorama Survey- opens 3/4

Remember that there are two surveys that are meant to collect data for the district's goal #4. It should not take 45 minutes.

IC rep action item- it will run through the English department

Proposal for next school year

Student attention spans are sparse, so let's utilize that. Nolan's brother is student teaching at Cibola and their IC is proposing a change in schedule: C days on Monday, Tuesday, and Friday, then block days on Wednesdays and Thursdays.

It was brought up that you need district approval for a schedule change (Highland, for example, has all C days and they have this approval). Also, those students who attend CEC would have issues. We would need "compelling evidence" that it would help students academically. But let's see what the staff think about it.

IC rep action item- Share this proposal with your department (C days Monday, Tuesday, and Friday, block days Wednesday and Friday). Make a list of the pros and cons for this possible change. Bring this information back to an upcoming IC meeting.
