

Elf story 3

Eramus is sad. He wants to make Stuart better elf. Santa and Eramus invent special medication for Stewart. The medication to make him nice. And for his allergy to other elves' success... but Stewart does not want it.

Other elves produce medication without Stewart's permission. Eramus invites Stewart and Sunnyblood tribe and wolf pack to his birthday party on the Suntia Island and they all come there in chocolate boats.

Eramus has got many nice presents from his friends and he is very happy. Just one thing is bad so Eramus prepares juice for Stewart with medication and for the others without it. There is a cake for Sunnyblood tribe and roasted meat for wolf pack of course.

Celebration began. The Sunnyblood tribe and elves became friends and the wolf pack too. Stewart drank juice with medication, he is nice and he has apologized for everything.

**Today it is the first day when Eramus and Stewart are friends. Stewart is a good helper for Santa now.
:-)**
