

## Fraughtian-MC Central Relations Request

To whom it may concern,

It's rare that we come across such a well-formed clan/server as yours. On behalf of the Fraughtian Constituent Congress, we congratulate MC Central on it's achievements so far. We've noted that your server has the potential to become something great, and we would like to have the honor of getting you there

We write to you today to offer our hand in friendship. In accordance to our Protocol of 2016, we desire "mutual recognition", an agreement between our people to recognize and respect each other and set the framework for a future where MC Central and the Fraughtian Community work together. The following shows the bilateral actions we would take, should you agree to it:

- The Fraughtian Community formally recognizes MC Central.
- MC Central formally recognizes the Fraughtian Community.
- Both parties agree to never show aggression towards each other.
- Both parties agree to respect each other's members, integrity and stability.

In addition to this, we'd like to establish a sort of "embassy" in your server, to facilitate Fraughtian-MC Central procedures. This is optional.

We sincerely hope you consider this. Once again, we congratulate your clan's prosperity and hope you excel.
