How Cannabis Edibles Work

Cannabis edibles are consumed orally and differ from inhaled products such as cannabis flower or vape pens. Because product formulations and individual responses can differ, consumers should carefully read the product label, warnings, cannabinoid information, and instructions rather than relying on assumptions based on another cannabis experience.

THC and CBD content can also vary among products. Customers should compare the information displayed on regulated packaging and avoid treating one product or format as universally preferable. Cannabis should not be used with the expectation of guaranteed health or therapeutic outcomes.

preferences, verified product information, and applicable regulations.

When to Choose Cannabis Edibles

Eligible adults may consider cannabis edibles when they prefer a non-inhaled form of recreational cannabis.
