[DATE]

Dear [name],

We're grateful for your participation in the RECOVER study. We are eager to learn with you why some people experience long-term effects after having COVID-19 and what can be done to speed recovery and prevent it.

As a part of your recent study visit, you completed [lab or procedure name]. These results have been reviewed by the study nurse and physician. We've included the results here for your records and encourage you to share them with your health care providers.

If you need assistance establishing care with a primary care provider, please reach out to us.

For any questions, please contact [study clinician name, credentials] at [phone]. Again, we thank you for your participation in this study.

Janet Lin, MD
Associate Professor of Medicine
RECOVER Study Core Director

John Quigley, MD
Associate Professor of Medicine
RECOVER Study Core Director
