takes place in the Sahara [Desert, where temperature	es can reach n	nore than 50°C	
(122°F). It's no wonder that	t the MdS is considered th	e toughest rad	ce on Earth!	
The athletes shown in the p			one seeking	
adventure. Do they inspire	you to push your own limi	ts?		

Have you ever (1)<u>pushed yourself</u> to your (2)<u>limit</u>? Do you know anyone who has? Do you ever wonder what can be gained by climbing a tall cliff – or jumping off it? Why do something that causes the body (3)<u>pain</u>?

People can be transformed by pushing themselves. These experiences teach (4)<u>determination</u>. Often, the desire to (5)<u>achieve</u> our goal (6)<u>enables</u> us to take risks. Many people take mild risks. Others feel a need to reach the (7)<u>unreachable</u>. These (8)<u>extreme</u> athletes test their own (9)<u>mental</u> and (10)<u>physical</u> (11)<u>boundaries</u>.

In most traditional sports, athletes compete against one another. But in extreme sports, the biggest (12)<u>opponent</u> is nature. In this photo, Olympic snowboarder Jussi Oksanen glides down the side of a glacier. Snowboarding on solid ice is (13)<u>hazardous</u>, especially with a 12 m. (40 ft.) drop below the glacier! But for extreme athletes like Oksanen, risk is just part of the job.

The same is true for big-wave surfers. Animals such as sharks and jellyfish pose serious risks to surfers. Another (14)<u>obstacle</u> that surfers must (15)<u>overcome</u> is the force of the water. After this photo was taken, surfer Koa Rothman was taken under by the (16)<u>unbelievable</u> force of the wave. So why do it? 'The view I had right here was one of the most amazing things I have ever seen in my life,' says Koa. 'Being in the middle of all that energy is unexplainable!'

Athletes who participate in the *Marathon des Sables*, or MdS, need to have incredible (17)<u>endurance</u>. In this desert marathon, participants must cross a distance of approximately 250 km. (155 mi.) over five or six days. The event takes place in the Sahara Desert, where temperatures can reach more than 50°C (122°F). It's no wonder that the MdS is considered the toughest race on Earth! The athletes shown in the photos are (18)<u>role models</u> for anyone seeking adventure. Do they inspire you to push your own limits?

2. to deal with and control a problem:	1. very large in amount or degree:
4. a level that is not possible to achieve: 5. something that makes it difficult for you to succeed at something: 6. to make something possible: 7. extremely bad or good and making you feel surprised: 8. to succeed in doing something good, usually by working hard: 9. the largest amount of something that is possible: 10. dangerous: 11. someone you try to behave like because you admire them: 12. a quality that makes someone continue trying to do something, although it is very difficult: 13. relating to the body: 14. someone who you compete against in a competition: 15. a limit: 16. relating to the mind: 17. an unpleasant physical feeling caused by an injury:	2. to deal with and control a problem:
