3+ YEARS

Job
FULL-TIME

About us:

Hello! It's Akvelon.

Since 2000 we've been developing software for technological and telecommunication giants worldwide.

We've been maintaining Microsoft Gold Certified Partner for many years. It allows us to be on the top of cutting-edge technologies in development.

According to «USA Today» Akvelon has been in the top 50-best companies nominated in «Best Leadership Teams», «Best Company Culture», «Best Company Compensation».

Now we're looking for a **Backend SDE** to join one of our client's projects. The company is developing a system that includes services for law and consulting firms work optimisation, providing a unified UI for all business streams.

Requirements:

- At least 3 years of practical experience with .NET and ASP.NET;
- Commercial experience with MS SQL Server;
- Experience in distributed systems development;
- Readiness to join evening meetings twice a week (5-6 CET).
- English language level not lower than Intermediate;
- Experience in communicating with English-speaking customers.

Nice to have:

- Experience with Azure.

Typical tasks:

- Implement new features, integrate 3rd party systems, optimize performance in backend operations;
- Fix bugs;
- Eliminate technical debt;
- Complicated enterprise project support;
- Address escalations from customers.

We offer:

- Flexible work schedule and remote work;
- English language trainings / private tutors / local languages for the current offices;
- Participation in conferences, professional trainings, workshops, mentoring programs / certifications;
- Opportunities for professional growth;
- Providing with all necessary hardware (laptop, monitor, headphones etc.);
- Monthly activities / quarter team buildings / corporate parties;
- Business trips in company offices;
- Monthly / quarter / year benefits;
- Private medical insurance (premium pack);
- Fitness / gym / swimming pool (Multisport card);
- Opportunity to move to the U.S. in the future.
