

Student Handout #2-One-pager

"Why voter suppression continues and how the pandemic has made it worse"

One-Pager

In this activity, you will take the most important concepts that you have learned about a specific topic (in this case, what you learned about voter suppression from the PBS NewsHour Podcast, "America Interrupted") and put the information onto a single piece of paper. You should combine images and information and make your one-pager standout as well as explain. Your one-pager should mix language and imagery. For example, you could emphasize certain words by making them larger or offset them, you could draw pictures, and/or include symbols.
