

How to Navigate Sports Engine

Once logged in, click on your initials in the blue circle (top right-hand corner).

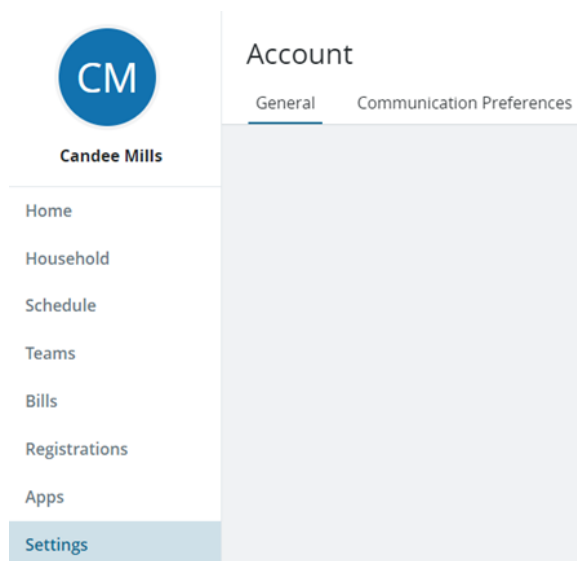

Click on Account Settings

General: here you will see your SE account information (name, email, number and password). You can add an email address here- please note that if 2nd email is another adult, this doesn't give them access to the account, just initiates an email to be sent.

*If you want another adult to be on the account (which allows access to schedule, RSVP, message, edit profile) please follow steps needed to Add a Guardian.

Communication Preferences: this allows you to set which emails/phone numbers get notified for each account. Check all boxes you want "active."

*This left-side panel (under your initials) is basically your information highway for summer baseball on our website.
